

**BROWARD HEALTH**

2009 Report to the Community

## **Broward Health's commitment to Broward County runs deep.**

First and foremost, we provide the best possible healthcare to all we serve. Whether it's bringing the latest high tech care to our patients, providing charity care for our most vulnerable residents or running one of the county's largest non-university pediatric clinical trial sites sponsored by the National Institutes of Health, we are a dominant force in healthcare in Broward County.

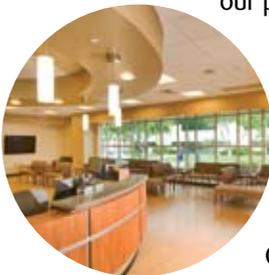

As an employer, we're one of Broward County's largest. With a workforce of more than 8,000 –and a payroll of \$500 million – each Broward Health employee strengthens the economic base of our community.

As a business, we reinvest in the community. Last year Broward Health spent \$14.5 million with local vendors for supplies and construction.

As an institution, we invest in human capital. Our residency programs are training the physicians of the future.

As the nucleus of Broward County's healthcare infrastructure, we are prepared to meet the challenges of the sweeping national healthcare reforms that began this year and will continue to change for years to come.

Broward Health's responsibility is built on one premise – a commitment to provide superior healthcare services to our patients and our community. To that end, we made notable strides last year.

We completed a \$17 million renovation and expansion of Imperial Point Medical Center's emergency room to better serve the eastern Fort Lauderdale community. The beautiful new 24,000 square foot emergency department began treating patients on January 3, 2010. Coral Springs Medical Center's \$21 million emergency room expansion also is underway. It will more than double in size to enhance emergency care for adults and children in Northwest Broward.

Our new child-friendly pediatric cancer center opened at Chris Evert Children's Hospital this past year. The \$1.2 million, 3,150 square foot renovation, with its colorful aquatic murals and tropical fish tank, provides the best treatment available to every child. The center was completely funded by donations from more than 2,500 individuals, schools and organizations.

Our highly trained physicians and staff have made it possible to offer state-of-the-art treatment to our patients. We treated our 100th patient with the CyberKnife® radiosurgery system at North Broward Medical Center. Our *da Vinci*® robotic surgery systems at Imperial Point Medical Center and Coral Springs Medical Center provide patients with smaller incisions and faster healing. Our high-tech 128-slice CT scanners at Broward Health Weston and North Broward Medical Center provide a phenomenal look inside the body with a minimal amount of radiation. All of our facilities are Joint Commission Accredited reflecting the highest standard of quality patient care.

Inside the pages of this Report to the Community, we highlight some of our premier services, but it does not begin to cover all that we offer the community. We encourage you to visit our award-winning web site, [www.browardhealth.org](http://www.browardhealth.org), for a much more detailed view into Broward Health, our services and our physicians.

Sincerely,  
  
Frank Nask  
President/CEO, Broward Health

  
Rhonda Calhoun  
Chair, Board of Commissioners  
North Broward Hospital District

## 2009 Financial Highlights

### Community Benefits

Charity Care	\$88,619,000
Care to Uninsured	\$90,570,000
Medicaid Subsidy	\$14,690,000
Community Health Services	\$27,949,000
Cost of Physician Services for Charity Care	\$56,282,000
Support of County Health Programs	\$6,711,000
CDTC & Broward House (cost subsidies)	\$1,318,000
<b>Total Benefit to the Community</b>	<b>\$286,139,000</b>

### Funds Received

Tax Revenues (Millage)	\$191,753,000
Less: Tax Assessor & Collector Cost	(\$10,446,000)
Disproportionate Share – Medicaid	\$41,938,000
Disproportionate Share – Medicare	\$17,211,000
County Primary Care Funding	\$9,105,000
Community Health Services Grants	\$6,697,000
<b>Total Available Revenues</b>	<b>\$256,258,000</b>

### Application of Tax Funds

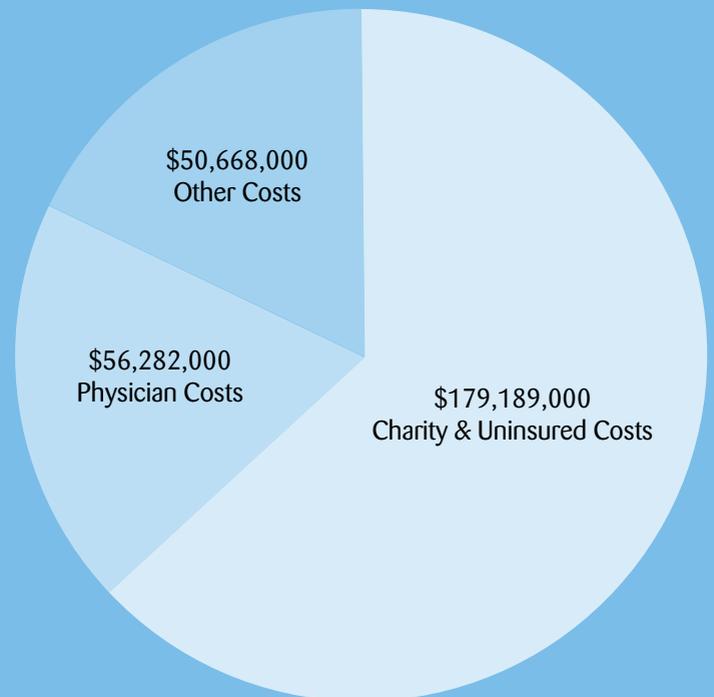

Broward Health provides care to the uninsured in excess of its tax support.

Broward Health contributed \$30 million of revenue generated from operations to the \$256 million in tax dollars and other funding to provide \$286 million in care to residents of our community.

- Charity & Uninsured Costs - dollars applied to cover the cost of indigent and uninsured patients
- Physician Costs - dollars applied to cover the cost of physician services for uncompensated care
- Other Costs - Community Health Services, Children's Diagnostic & Treatment Center (CDTC), health screenings, HIV/AIDS services

### Vital Statistics

Number of Employees	8,110
Births	5,746
Inpatient Admissions	63,717
Inpatient Surgeries	13,869
Outpatient Surgeries	16,488
Outpatient Medical Center Visits	295,822
Outpatient Clinic Visits	19,110
Emergency Department Visits	253,449
Emergency Department Admissions	45,668
Home Health & Hospice Visits	58,615
Physician Office Visits	176,397
Broward Health Weston Visits	40,352
Primary Care Visits	154,939
Trauma Patients	3,573
Adult Liver Transplants	30

Kathy Connell, breast cancer survivor, with daughters, Megan and Marisa

## Cancer Care

Cancer care improves every day as research and technology come together to provide better treatment options. Our comprehensive cancer services and highly specialized physicians allow you to find some of the best cancer care options right here - close to home. We provide state-of-the-art diagnosis and treatment for all forms of cancer in adults and children.

Our Comprehensive Cancer Centers at Broward General Medical Center and North Broward Medical Center are both approved by the American College of Surgeons Commission on Cancer – national accreditations held by only one out of four cancer centers. We are affiliated with the renowned Moffitt Cancer Center in Tampa, giving patients extra assurance that they are receiving the best possible care.

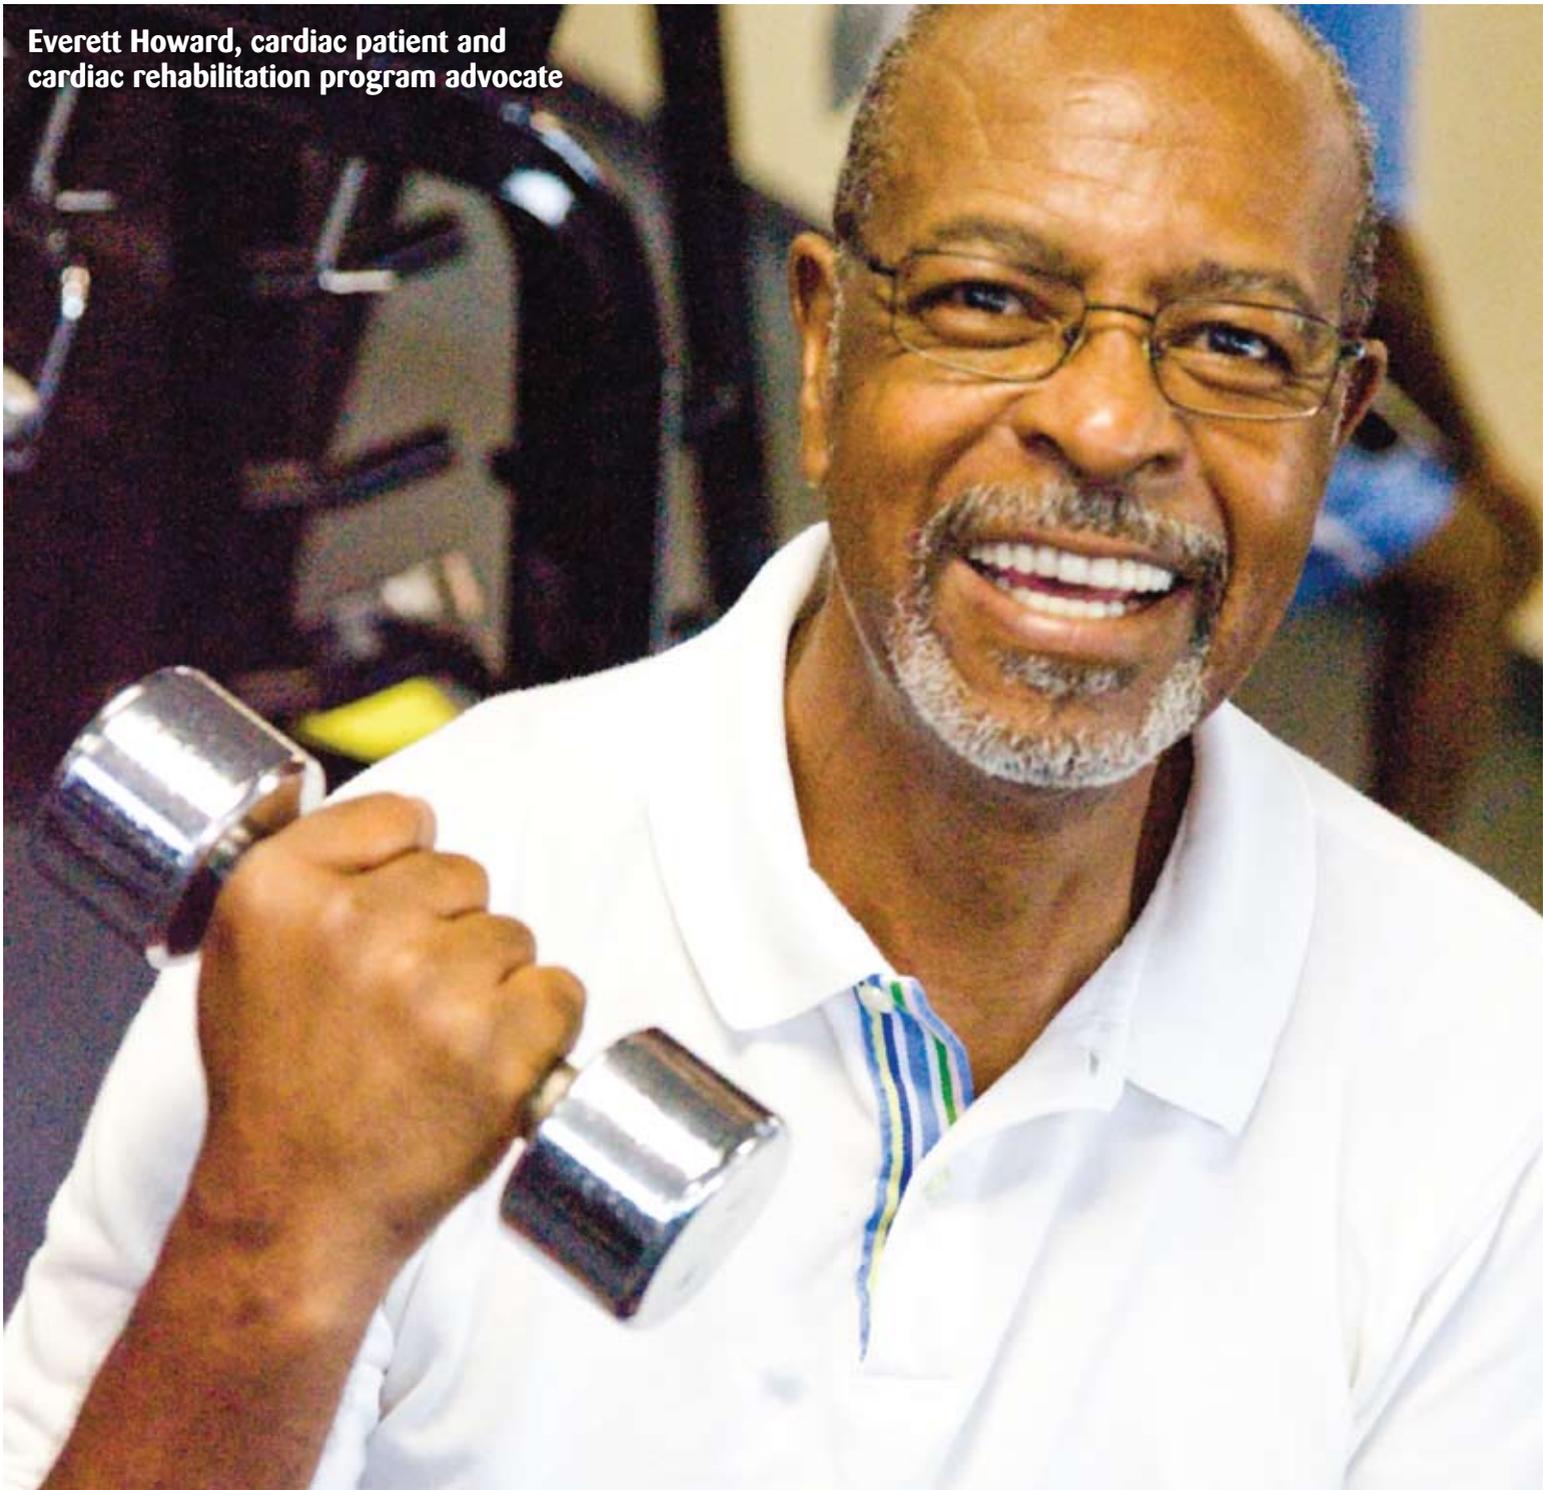

Our patients have access to the latest cancer-fighting technologies.

The Varian Trilogy and Varian iX Image Guided Radiation Therapy Systems pinpoint tumors at the moment of treatment, providing faster, more precise treatments, and allowing the delivery of higher doses of radiation to tumor sites while sparing adjacent healthy tissues. Broward's first hospital-based CyberKnife® Robotic Radiosurgery system at North Broward Medical Center allows for pain-free treatment of tumors that were once considered inoperable. This non-invasive alternative to conventional surgery works with sub-millimeter accuracy and unsurpassed flexibility, tracking for tumors in the brain, spine, lungs, liver, pancreas and prostate.

When a surgical solution is recommended, the *da Vinci*® surgical systems available at Imperial Point Medical Center and Coral Springs Medical Center provide the best in minimally invasive robotic surgery.

Everett Howard, cardiac patient and cardiac rehabilitation program advocate

## Cardiac Services

Heart disease claims nearly one million Americans every year. That's more than cancer, trauma, pneumonia, influenza and AIDS combined. Fortunately for our community, Broward Health is one of the nation's leading health care systems for treating heart disease. The Heart Center of Excellence at Broward General Medical Center, the hub of our cardiac services, has been distinguished as one of the nation's top centers for cardiovascular treatment.

Broward Health facilities combine the medical expertise and technology needed to provide the most advanced procedures available – right here in Broward County. We offer the best and latest technology to pinpoint all types of heart problems. Our recent acquisition of two 128 multi-slice CT scanners means Broward Health can provide the most advanced thoracic diagnosis available.

Our cardiac surgical services include: coronary bypass, minimally invasive valve surgery, and aortic and thoracic surgery. We offer patients access to a cardiac rehabilitation center at The Heart Center of Excellence as well as a wide range of services at North Broward Medical Center and Imperial Point Medical Center from prevention, diagnosis and treatment.

In 2009, Broward Health Broward General Medical Center was recognized for achievement in using evidence-based guidelines to provide the best possible care to patients through The American Heart Association / American Stroke Association's Get With The Guidelines<sup>SM</sup> program.

Chris Evert with patients Sabrina Folkes,  
Mackenzie Gonzalez and Sophia Pouliot

## Caring for Children

Broward Health provides family-centered care for newborns, children and youth. Our dedicated healthcare teams include pediatricians, representing dozens of sub-specialties, and pediatric nurses, committed to serving the special needs of children and their families.

### Chris Evert Children's Hospital

Quality, board-certified pediatric specialists care for more than 27,000 children per year at the Chris Evert Children's Hospital. The hospital offers a complete range of services for pediatric patients and their families. From the pediatric emergency department to the pediatric intensive care unit, we offer the most advanced care for children. Our neonatal intensive care unit provides the highest level of care for infants who are critically ill, premature or have special needs.

In 2009, we opened the Pediatric Hematology and Oncology Center, a \$1.2 million, 3,150 square foot expansion project that was funded completely by donations from the community. The facility includes individual exam rooms and an infusion area decorated with child-friendly murals. The center's staff includes two board-certified pediatric hematology/oncology physicians, a board-certified pediatric palliative care physician, pediatric palliative care consultants, endocrinologists, a pediatric social worker, and a dedicated nursing staff trained through The Association of Pediatric Hematology/Oncology Nurses.

To assist out of town families, Broward Health and the Ronald McDonald House of Fort Lauderdale provide families a comfortable and supportive place to stay while their child undergoes treatment.

In the northwest section of the county, children's services at Coral Springs Medical Center include neonatal and pediatric intensive care units, ER for Kids, pediatric rehabilitation and pediatric sub-specialties including orthopedic surgery. Camp Korakids for ages 5 ½ - 11 years, is a special summer camp for kids with diabetes where they learn that good health and lots of fun can go hand-in-hand.

### Children's Diagnostic & Treatment Center

The Children's Diagnostic & Treatment Center (CDTC) provides medical care, case management, and other services to children and adolescents with chronic illnesses and disabilities living in Broward County. The Center serves more than 10,000 children and their families, regardless of their ability to pay. Services include: evaluations; individual and group therapy; support groups; physical, occupational and speech therapies; recreational events; nutritional counseling; and emergency assistance. The Center is actively engaged in behavioral and clinical research programs sponsored by the National Institutes of Health, the Centers for Disease Control and Prevention, and universities and foundations.

### Pompano Pediatric and Prenatal Care

The Pompano Pediatric Primary Care Center and Pompano Prenatal Care Center provide quality and comprehensive healthcare to young patients. Services include physical examinations, school physicals, immunizations, nutritional counseling, and referrals for specialty care.

Donna Zappin, anterior hip replacement patient

## Orthopedics

Broward Health is the County's leading provider of orthopedic services. Our orthopedic physicians perform more joint replacement procedures than any other healthcare system in Broward County. New technologies and approaches to joint replacement are available, such as, computer-assisted total hip and knee replacement surgery and anterior hip replacement surgery.

Several of our surgeons are now performing a new technologically advanced, minimally invasive, single incision laparoscopic surgery.

Our orthopedic services also include: sports, spine, hand, reconstructive procedures, gender-specific knee replacement, and mini-incision hip replacement surgery. Our facilities offer inpatient and outpatient rehabilitation and therapy programs designed to help you gain back independence.

The Broward Health Sports Medicine program is all about keeping players of all ages in the game - from weekend warriors to professional athletes. The sports medicine team includes the community's finest orthopedists and sports medicine physicians.

The Broward Health Athletic Training Program is the largest provider of sports medicine for Broward County Schools. Our team of physicians and licensed, nationally certified athletic trainers help care for Broward County's youngest competitive athletes. Athletic trainers can be found on the sidelines of all types of school sports events.

## Community Health Services

At its core, Broward Health's mission is to take care of the healthcare needs of our community – especially those who are most vulnerable and at risk. As the medical safety net for the uninsured and underinsured, Broward Health has a variety of facilities and programs in place to assist our community with healthcare access and affordability. These programs and services are at the very heart of who we are as an organization and we are proud of the services we provide all of our patients, regardless of their ability to pay.

- Our neighborhood-based primary care centers such as Clinicas de las Americas and Seventh Avenue Family Health Center provide a complete continuum of care including prevention and education, outreach, case management, urgent care, and dental care.
- School-based health centers were established in 1994 in collaboration with the Broward County School Board to meet the needs of the students, their families, and neighborhood residents.
- The Health Care for the Homeless program offers healthcare services to Broward County's homeless population at two clinics and various mobile sites throughout the County.
- Gold Coast Home Health and Hospice Services ensures that patients receive quality care by working closely with the patient, their family, and their physician to develop a plan of care specially tailored to meet their individual needs.
- In Broward County, an estimated 2,000 children whose parents can't care for them live with extended family or family friends. Often these caregivers do not have access to the financial, legal and health benefits available within the foster care system. The Kinship Cares Initiative, administered by Broward Health, is a partnership among service agencies and county health systems to provide assistance for these non-traditional families.

## Grants

Broward Health's Grants Department locates and maintains grant award funding for Broward Health to assist the medically underserved and uninsured in our community. In 2009, Broward Health received more than \$10 million in grants including:

- More than \$5 million in Ryan White grants to provide care for people living with HIV/AIDS in Broward County, which has the second highest incidence of HIV/AIDS in the country
- More than \$3 million to provide healthcare services to the homeless

In addition to fighting HIV/AIDS, caring for the homeless, and assisting Kinship families, grants funded: mammograms and support for women with breast cancer; provided free vision screening for children; support groups; and end-of-life programs.

## Supporting Community Organizations

As one of the largest healthcare organizations in Broward County, we are privileged to work with many other nonprofit organizations in our community. Broward Health sponsors events and activities that support our mission as a public health system. An organization must be a 501(c) or government entity and provide a majority of its services in Broward County to be considered for sponsorship. In 2009, we provided more than \$370,000 to nearly 100 local nonprofit organizations, among them:

Alzheimer's Family Center; Broward Partnership for the Homeless, Inc.; Crohn's & Colitis Foundation; Gilda's Club South Florida; Healthy Mothers, Healthy Babies Coalition of Broward County; Henderson Mental Health Center; Leukemia & Lymphoma Society; March of Dimes; Minority Development & Empowerment, Inc.; and Women in Distress

## Community Outreach

Broward Health provides health screenings, lectures, immunizations and education programs throughout the community. A listing of community outreach events is available on [www.browardhealth.org](http://www.browardhealth.org). Some of our outreach efforts include:

- Broward Health Line provides: physician referrals, answers to community questions, and registration for our outreach programs. Staffed with multi-lingual representatives, Broward Health Line is open Monday-Friday, 7:30am-4:30pm. Call 954.759.7400 or e-mail [healthline@browardhealth.org](mailto:healthline@browardhealth.org).
- Broward Health experts are available to present programs on almost any medical or health-related topic through our Speaker's Bureau. For information visit [www.browardhealth.org](http://www.browardhealth.org) or call the Broward Health Line at 954.759.7400.

## Awards

Broward Health is proud of the achievements and awards we earned last year thanks to the hard work of our dedicated employees. They represent our on-going commitment to excellence as we strive to provide this community with the best care possible. Here are just a few of the recognitions we received.

### Health Bond Rating

Reaffirmed Aaa/VMIG 1  
*Moody's Investors Service*

### Patient Safety Initiative at America's Public Hospitals

Broward Health Imperial Point Medical Center  
Broward Health North Broward Medical Center  
(2 of only 25 hospitals nationwide)

Broward Health Imperial Point Medical Center  
Center for Wound Care and Hyperbaric Medicine  
Broward Health Coral Springs Medical Center  
*Undersea and Hyperbaric Medical Society*

### Jean Byers Memorial Award for Excellence in Cancer Registration

Broward Health Coral Springs Medical Center

## Charitable Foundation

The Broward Health Foundation's mission is to provide resources to promote, support, and enhance the programs and initiatives of Broward Health. As the philanthropic arm of Broward Health, the Foundation strives to raise funds through individual and corporate gifts, annual fund campaigns, and special events. The funds raised enable Broward Health to continue to bring the most state-of-the-art technology, medical innovations, and staff support to our hospitals.

In 2010, the focus is on the construction of the new Lillian S. Wells Women's Health Pavilion at Broward General Medical Center. This new center is the result of a \$4.5 million donation to the Broward Health Foundation from the Lillian S. Wells Foundation.

The Foundation raises money throughout the year from a variety of special events and through community support. The 18th Annual Broward Health Foundation Golf Tournament raised close to \$140,000 last year, making it the most successful tournament in its history. Those funds will contribute to the \$60 million renovation and expansion of Chris Evert Children's Hospital.

Support is provided also by the Auxiliary, volunteers who donate thousands of hours of service and raise funds to purchase equipment for Broward Health hospitals.

Students at American Heritage School coordinated the first pre-season high school hockey tournament with proceeds to benefit the pediatric cancer patients at Chris Evert Children's Hospital. The tournament raised \$4,000 and plans are underway for next year's event.

These are just a few examples of how the community has gotten involved to make a difference in the lives of our patients. For more information or to get involved visit [www.browardhealthfoundation.org](http://www.browardhealthfoundation.org)

## SPECIALTY CARE SERVICES

### Children's Diagnostic and Treatment Center

The Children's Diagnostic & Treatment Center provides medical care, case management, and other services to children and adolescents with chronic illnesses and disabilities living in Broward County.

### Community Health Services

#### Clinicá de las Américas

Clinicá de las Américas provides primary healthcare services for patients 15 years and older, including treatment for chronic health problems such as diabetes, high blood pressure and heart disease. Physicians and staff members speak several languages.

#### Comprehensive Care Center

Comprehensive Care Center focuses on patients with HIV/AIDS. Services include case management, disease state management, clinical trials, and referrals for specialty care.

#### Gold Coast Home Health & Hospice Services

Gold Coast Health & Hospice Services provides basic nursing, infusion, and rehabilitative services to patients in their homes, along with specialized services including pediatric care.

#### Health Care for the Homeless

Broward Health's Health Care for the Homeless Program offers a wide array of medical and related services to the homeless population. Physicians, nurse practitioners, registered and licensed practical nurses, and other professional personnel provide care at clinics and mobile sites throughout Broward County.

#### Pompano Adult Primary Care Center

#### Pompano Pediatric Primary Care Center

#### Pompano Prenatal Care Center

Pompano Adult Primary Care Center, Pompano Pediatric Primary Care Center and Pompano Prenatal Care Center provide medical services to their respective age groups. Services include well and sick care, physicals, immunizations, case management, and referrals to specialty care.

#### Seventh Avenue Family Health Center

Seventh Avenue Family Health Center offers medical care in an inviting and modern neighborhood center. The Center provides routine adult and child care, prenatal care, immunizations, social services, and other services. The Urgent Care Center, located at Seventh Avenue Family Health Center, is designed to treat people with minor but urgent illnesses.

### School Based Health Centers

**Amadeo Trinchitella Deerfield Beach High School Health Center**

**Lauderhill Community Health Center**

**William Dandy Middle School Health Center**

Broward Health's School Health Program is a collaboration with the Broward County School Board to improve access to healthcare for school children and members of the community.

### Specialty Care Center

The Specialty Care Center offers radiology, pharmacy and lab services, along with specialized services such as HIV/AIDS care, dermatology, ophthalmology and occupational medicine.

## North Broward Hospital District Board of Commissioners

Broward Health is governed by the North Broward Hospital District Board of Commissioners. Each of the seven members is appointed by the governor to a four-year term.

**Rhonda A. Calhoun**  
Chair

**Joel K. Gustafson**  
Vice Chair

**Miguel "Mike" Fernandez**  
Secretary

**Richard Paul-Hus**  
Treasurer

**Joseph M. Cobo**  
Assistant Secretary

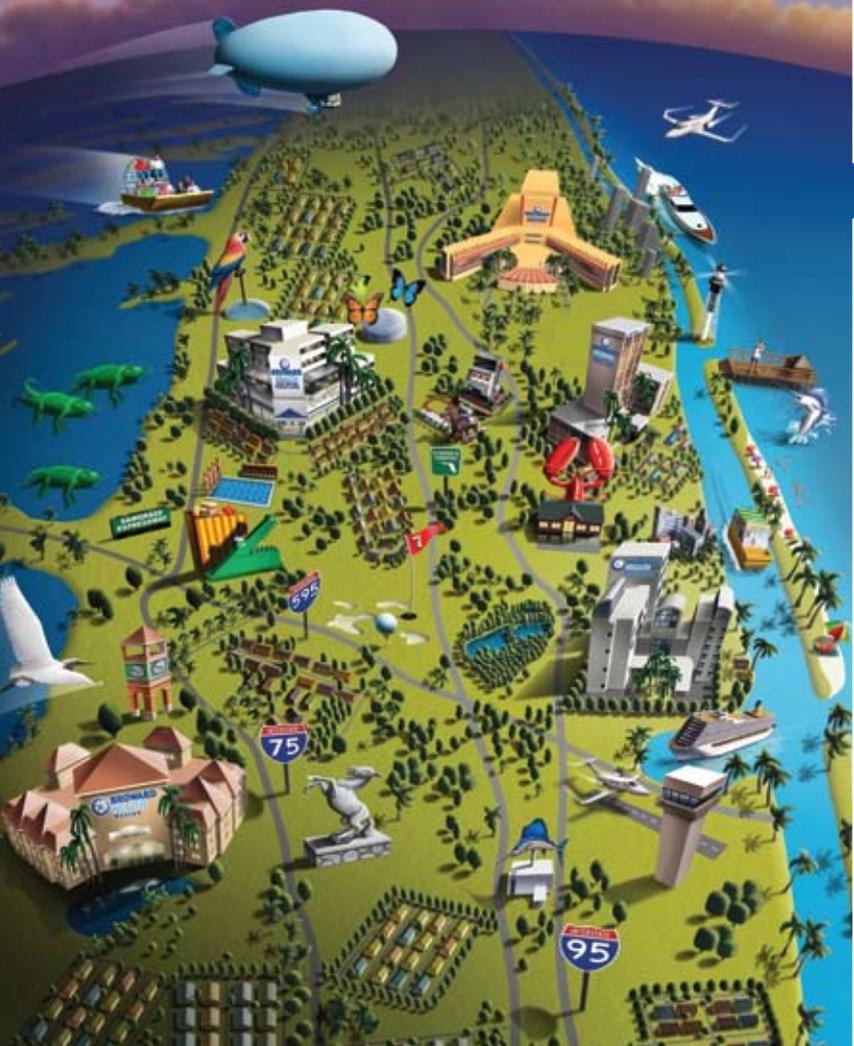

**Clarence V. McKee, Esq.**  
Board Member

**Jennifer O'Flannery Anderson**  
Board Member

# WE PUT MORE DOCTORS ON THE MAP.

## **Broward Health Physician Group**

To create a strong foundation for a healthy community, access to physicians is critical. The Broward Health Physician Group, a multi-specialty medical group that provides quality healthcare to the residents of Broward County and surrounding areas, was formed in 2007 for just that reason. Today, the practice employs more than 50 physicians and is continuing to grow to meet the needs of the community. Please visit [www.browardhealth.org](http://www.browardhealth.org) for information about Broward Health physicians or call the Broward Health Line at 954.759.7400 for a physician referral.
